Certificate III in Allied Health Assistance  HLT32407
Campus: Online
Duration: 24 weeks (Full-time or equivalent part-time)

The Certificate III in Allied Health Assistance is perfect for those seeking to gain skills in allied health in general therapy areas.

The Certificate III in Allied Health Assistance will provide you with a foundation in the areas of anatomy, physiology and clinical practice, and you’ll be introduced to fitness.

The course focuses on developing the skills necessary to work with and interact appropriately with clients.

It’s a hands-on course where you’ll learn about the legal and ethical issues in health care. You’ll practice your communication skills, and apply your knowledge of anatomy and physiology to the treatment and care of real clients in the AIAS Clinic.

Where will it take me?: Achieving this Certificate III qualifies you to provide assistance to allied health professionals. As a key member of a health team at this level, you’ll operate under direct supervision in fields such as Occupational Therapy, Radiology, Podiatry, Speech Pathology and Physiotherapy.

Your role could involve developing therapy resources, conducting client sessions, and administrative tasks. Employment can be gained in hospitals, both public and private, and in the rehabilitation sector.

Many graduates of this qualification also continue their studies, undertaking the Certificate IV in Allied Health Assistance.

Certificate IV in Allied Health Assistance  HLT42507
Campus: Brisbane or Online
Duration: 24 weeks (Full-time or equivalent part-time)

The Certificate IV in Allied Health Assistance Nutrition will provide you with the skills to perform therapeutic and program related support to allied health professionals.

The course focuses on the foundation knowledge in nutrition principles required to work as an allied health assistant in areas of nutrition or dietetics. Additionally students gain the opportunity to develop the skills necessary to work with and interact appropriately with clients.

Where will it take me?: Achieving the Certificate IV in Allied Health Assistance Nutrition qualifies you to perform the role of a nutrition or dietetic assistant to allied health professionals.

Allied health professionals cover areas such as rehabilitation, nutrition, physiotherapy and occupational therapy. Other roles could include meals on wheels professionals and health promotion workers.

Occupational titles for these workers may include: Therapy Assistant, Nutrition Assistant, Dietetics Assistant, Allied Health Assistant, Occupational Therapy assistant.

While this Certificate IV in Allied Health Assistance Nutrition has an employment outcome in its own right, it is expected also to be used as a pathway for learners wishing to continue their studies in allied health, nursing, nutrition or dietetics.

Certificate III in Fitness  SIS30210
Campus: Online
Duration: 36 weeks (Full-time or equivalent part-time)

Includes practical skills component with a registered fitness instructor.

The Certificate III in Fitness is perfect for those seeking entrance into the fitness industry as a fitness instructor.

The Certificate III in Fitness will provide the skills and knowledge to develop and deliver exercise programs and potentially move towards a career in personal training. It’s a hands-on course where you will learn about Anatomy and Physiology, Fitness Nutrition, Client Services, Fitness Instruction and Strength and Conditioning.

This programme is delivered online – training, assessment and support – and also includes a hands-on, gym-based and practical skills component, supervised by a registered instructor in the workplace.

Where will it take me?: A Certificate III in Fitness offers graduates dynamic career pathways in the fitness industry. Completion of this course qualifies graduates to be employed as fitness instructors in gyms, fitness facilities and communities, or in an outdoor environment. Students may also choose to continue their studies with a Certificate IV in Fitness to become a Personal Trainer.

Certificate IV in Fitness  SIS40210
Campus: Online
Duration: 36 weeks

Includes practical skills component with a registered fitness instructor.

The Certificate IV in Fitness is the minimum requirement needed to become a personal trainer.

This advanced course is targeted at people who already have experience in the fitness industry and wish to further their skills. Students are provided with the knowledge, skills and confidence to deliver innovative one-on-one and group personal training sessions.

The Certificate IV in Fitness is a hands-on course where you will learn about small business compliance and marketing, fitness assessment and programming, planning and delivery of personal training and strength and conditioning.

You will be required to complete the gym-based practical skills components of the course with a registered fitness instructor in the workplace.

Where will it take me?: With a Certificate IV in Fitness, you can work as a personal trainer in fitness centres and gyms, or even run your own business. Graduates will be expected to train individual clients, on a one-to-one basis or as part of a group, and will have the ability to plan, conduct and evaluate exercise training. With this qualification, it is expected also to be a pathway for students wishing to continue their studies at Diploma level.

About AIAS
Whether you intend to study for interest, or to begin a new career in the health or well-being industries, the AIAS has a course that will suit you. The AIAS provides world-class quality education to students, at an affordable, competitive price.
